## HOW TO “BALI”

- **Fresh water**, in most areas of Bali are clean and usable, but not necessarily drinkable. Only drink from bottled mineral water.
- **Food**, is also easy to get with the famous Indonesian online food delivery such as Gojek and Grab.  
Do not leave the island before you try its famous local delicacies such as: Babi guling (suckling pig), Terang bulan (sweet local pancake)
- **Respect religious customs**, while we love our fun night at the bars, when you do a temple trip, please be mindful of all the sacred religious sites, in general picture taking are allowed, but touching / entering sacred items are strictly prohibited
- **Haggle**, is very common when you are on the street side outlets, open up the conversation with a 50% off the starting price. One thing to remember, be respectful during the process.
- **Money Changer & Transportation**, only go to trusted vendors at public areas, or simply go to the ones we have at the hotel area.
- **Love the earth**, Bali is proudly pioneering the free plastic bag campaign a few years ago, therefore, join us in this great initiative by bringing your own reusable bag when you go shopping and use your refillable drink bottle whenever possible
- It is easy to **get around**, either with online transportation or even by foot. If you ever decide to drive your own vehicle, please ensure to always wear your helmet and carry your international driver's license

Ask our hotel staff for more of their favourite neighbourhood finds!

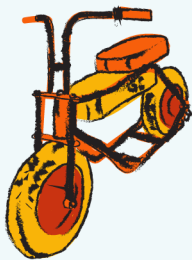

Balinese Lingo,  
being a local is not all that difficult,  
learn the local lingo to get by,
